PROJECTS

• **Portfolio**   **Jan 2022 – Feb 2022**
Created my portfolio for a resume prospect using HTML, CSS, Bootstrap, JavaScript, ReactJS and used some other frameworks to make it more interactive and user friendly.

ACTIVITIES

I have joined DTU's official fest organization team ENGIFEST where my task is to make hype of Fest to other colleges and bring sponsors for fundings and business.
I am also interested in video editing where I used my make and edit of any celebration or any gaming montages and upload it on only platforms.
